

## WATER STILL RISING

ailed on the "lake" in former arroyos. It was farther south, and it was reached on Warner's ranch in San Diego county. I did not think there was any danger whatever. The salt works might be completely damaged, the railroad tracks might be floated, but then the railroad people are used to having their tracks washed away in this region by floods and cloudbursts, and would not be delayed to any great extent by anything coming out of the shape in any of the water after the water receded.

**THE WATER STILL RISING.**

**Latest News from Salton—The Situation Becoming Serious.**

**DANKING, July 1.—[Special.]** There no longer remains any question of an immense quantity of water on the Colorado Desert in vicinity of Salton, and the situation is

He conceded now that the water comes from the Colorado River indirectly, but from Hardy's new river directly. Tuesday afternoon at 5 o'clock a boat with E. J. Alvilibi and crew put out from Salton sailing in a southeasterly direction, but drifted out of its course and struck about Wallers eleven miles to the west.

m., and started out again at 4 a. m., Wednesday, with a fair wind, and sailed to a point fifteen miles southeast of Salton, there they struck a current about half a mile wide running like a mill race from southeast toward Salton. The current was only fourteen inches deep the shallowness, owing to

near and not nearly so salt as that near the railroad. The boat returned to Salton noon, having sailed about forty miles. Mulvihill felt assured that water comes from the Colorado River, and dispatches received from Col. J. H. Bialsdell, superintendent of the Cargo Muchacho mines, seems corroborate this. He says that last Feb-

dry the Colorado River overgrown, dried  
ard's new river, and many basins, and  
at water has been running over the banks  
ever since. Owing to the sand and evapo-  
ration it has taken this long to reach Sal-  
mon. He has always wondered where the  
water was going to, and this explains it.  
The flood will last as long as the Colorado  
remains in the same state.

et. New river is full and water is running over the banks. If the banks give way a volume of water twenty feet high and miles long will break forth and take everything before it. Mulvihil has sent men from Volcano Springs to a point ten miles south in the desert. If the water is running in a current there, there is no longer any doubt.

miners sent to that same point from Yuma are not returned. Mulvillill is doing all the work at Salton with the idea that the lake is going to fill up. He has taken out the salt-works spur and is floating it to the main line. The water is now within 1000 feet of the main track. In came in 200 feet in two hours today. If it continues to

at the Southern Pacific track in three days. The deepest water found was three feet and the shallowest in the current fourteen inches. Darbrow is much alarmed, but says he will stay with the works to the last moment. He wants the railroad company to send men to fix the break in New River. The break is thirteen miles below

The Indians are badly scared. All the desert Indians have fled to the hills, and even those as high up as Banning are leaving for the mountains. A week ago a medicine man came to the Banning reservation and told the Indians that the Messiah said there will be a big flood by July

and only the Indians saved. He said that the Indians who worked up to July 4 would not have time to get away. All the Indians are much excited, even those as intelligent as John Morongo and Joe Miguel who are going to Grayback Mountain with their families tomorrow. Banning, from her elevation of 2300 feet, views the rise of the

SALTON, July 1, 11 p.m.—At this hour the water is still rising, but not so rapidly as in the afternoon, H. W. P.

**PRIDHAM WEDDING RECEPTION.**  
The handsome residence of Mr. and Mrs.

scene of a brilliant gathering last evening on the occasion of the wedding reception of Mr. and Mrs. Richard W. Pridham. The grounds surrounding the mansion were gay with colored lanterns and the bright, white glow of the electric light just without.

Sweet strains of music from Musso's orchestra, which was stationed in the hall, greeted the guests as the doors swung open to admit them. Charming effects had been produced in palm leaves. Great spike palms stood like sentinels outlined against the handsomely frescoed walls of the draw-

the vines radiating from an alcove to the central chandelier—stood the bridal couple. They were assisted in receiving by Misses Gertrude Finney, Letha Lewis and Judge Clark. A more beautiful bride has not graced the social circles of Los Angeles in many a day. In her robe of white faille silk she looked dainty and petite as a fairy.

low cut corsage and extended across the front of the dress. She held a lovely fan of creamy ostrich feathers in her gloved hands.

Mr. and Mrs. Gould, who are the uncle and aunt of the bride, received the guests as they entered the drawing-room, and were assisted by Mr. and Mrs. J. H. Blanchard,

The bannisters were hidden in an ingeniously contrived network of foliage and Egyptian grasses and roses and gladioli and the brilliant calliopsis lent color to the decorations in the reception-rooms. Refreshments were served by colored waiters

of the parrs were partially repeated. An artistic frieze of hand-painted morning glories extends on the wall around the ceiling in this room, giving it a perpetual floral decoration that is very pleasing.

Altogether the affair was one of the most enjoyable of the waning season. Mr. and Mrs. Pridham will be at home to their

Among the guests present at the reception were: Mr. and Mrs. R. D. P. Widner, Mr. and Mrs. A. I. Barker, Mr. and Mrs. B. F. Nance, Rev. and Mrs. J. L. Spencer, Dr. and Mrs. I. N. Fellows, Mr. and Mrs. Jas. Burdett, Mr. and Mrs. Geo. T. Hanly, Mr. and Mrs. Chas. L. Batschelet, Mr. and

Mrs. S. J. Giddard, Mr. & Mrs. S. J. Potts, Dr. and Mrs. S. S. Salisbury, Miss Agnes McLean, Mr. and Mrs. E. K. Foster, Mr. A. B. Whitney and family, Dr. and Mrs. P. K. Moore, Rev. Dr. Hutchins and the Misses Hutchins, Rev. B. F. Coulter and family, Mr. and Mrs. J. D. Wiley, Wm. C. Furrey and family, Al. Lindley, Mr. and Mrs. W. F. Hochstetler, Mr. and Mrs. M. W.

Childs, R. K. Green and family, Mr. and Mrs. C. Gaspin and daughter, Mr. and Mrs. John Bio-ser, Judge F. Stanford, Miss Honorita Pelancaula, Dr. and Mrs. J. H. Cowles, Mr. and Mrs. J. H. Call, Mr. and Mrs. R. H. Bryant, Miss Wilson, Miss Gibson, Messrs. S. Peterson and T. Nelmes.

Mrs. S. C. Hubbell gave another of her delightful luncheons yesterday. The honored guests were Miss Snell of Oakland and Mrs. R. M. Widney, recently returned from Boston. The floral decorations were arranged with the same exquisite taste that characterizes all the efforts of this description.

The guests were: Miss Snell, Mrs. Widney, S. S. Salisbury, J. B. Owens, E. C. Kioke, C. N. Flint, O. Melveny, Family, Miss O. Melveny, and Mrs. Graham and Miss Colyer of Pasadena.

THE SPENCE PARTY.

The young friends of Mr. Gloun Spence arrived in Moscow Tuesday evening on their arrival at Moscow. The college buildings and grounds were beautifully decorated for the occasion. A dainty supper was served and Doh's

The Ideal Guitar and Banjo Club has been a recognized place among the musicians of Los Angeles. That fact was established last evening by the excellence of their second concert, and the size, character and appreciation of the audience. The concert was given at the Hotel St. Francis. Many were obliged to stand, as all chairs above and below were occupied. Prof. de Lano has for his earlier instructor, and has the honor to have had his pupils to a most satisfactory degree of perfection, as testified by the presence and approval of the distinguished musical director, last night. The instruments were handled with a skill that won applause and flowers in generous measure. The singing of Miss Gaudin, of the club, has been eliciting an enthusiastic response, as it always does. The magnificent

panapist was in tune with the splendid  
acrobatic movements of the singer.  
"Rippling Stream Waltz" played by  
and Mrs. del., was one of the gems  
the evening—a musical rippling thing,  
composition of Mr. del.  
The following is the programme:  
a) "Invincible Guard march" (Shattuck),  
"Wheelman's Gallop," with bicycle  
rhythmic, (Grover)—Ideal Guitlar and Banjo  
Club.  
"Charming Gavotte," (LeThère)—Ideal  
Guitlar Club.  
"A Voce Poco Fa," (Rossini)—Miss  
Maud E. Mitropo.  
"Polka Militaire," (Grover)—Miss Maud  
E. M. Maszka.  
"Grecian Mazurka," (C. de Janon)—Ideal  
Guitlar Club.  
Polka caprice, "La Brillante," (Grover)—  
Ideal Guitlar and Banjo Club.

... and Banjo Club. (DeLano) —  
 and Mrs. C. S. de Lano. (DeLano) —  
 "Mignon Song," (Thomas) — Miss Grace  
 Milmore.  
 "The Bird's March," (Desmores) — Ideal  
 Guitars Club.  
 "Southern Melody," (Grove) — Messrs. A.  
 True, C. S. de Lano and B. G. Lesage.  
 "The May Day Song," (Lester) — Messrs. J. H.  
 (Lowe) (b) "Darkies' Parole," (Lan-  
 guage) — Ideal Guitars and Banjo Club.  
 Among the audience were seen the faces  
 of the following: Mrs. J. H. Pomeroy, Mattie  
 (Laney), Dr. and Mrs. Hicknell and daugh-  
 ter, Mrs. F. C. Howes and daughter, Mr.  
 and Mrs. J. H. Book, Mrs. E. A. Forrester,  
 Mrs. J. H. Forrester, Mrs. C. W. Howes, and  
 Mrs. A. E. Pomeroy, Mr. and Mrs.  
 Conhue, J. Fred Blake, Mr. and Mrs. C.  
 Howry, Miss Webb, Mr. and Mrs. F. L.

and Mrs. J. M. White, Frank Simons, and Mrs. J. M. White.

**WEBSTER LITERARY SOCIETY.**

The Webster Literary Society, which meets every Tuesday evening at their hall in the corner of Pico street and Myrtle avenue, have a very good programme laid out for the winter. After a number of good songs and recitations were given last year, the programme was terminated by a play taken from Shakespeare's *Richard the Third*. The programme for this year is: "Duke of Gloucester," W. B. Robinson; "Duke of Clarence," Ernest Cassell; "Queen Anne," Miss Lydia Deckman; "The Murderer," Mr. T. C. Taylor. The programme is doubtless for amateurs, and shows that with a little more practice in some easier roles they will be able to give some very good entertainments in the future.

—INTER AND REPUBLICANS.

The Pridhams and Platers took possession of their apartments at Hotel Redondo yesterday.

The Supervisors enjoyed a trip to Wilton Peak yesterday and camped on the heights last night.

Mrs. Vanderloot of Coronado will arrive today to be the guest of her parents, Rev. and Mrs. R. S. Cantine.

Mr. and Mrs. M. J. Slauson and son, Thad, will spend their vacation in the San Jacinto Mountains, at Strawberry valley.

Capt. H. K. Bailey and family have moved in from Estrella avenue, and taken possession of their new home.

Mrs. J. S. Slauson left Monday for the North where she will join the Macneels, and together they will proceed to Alaska.

My brother, Sparks Johnson, is slowly recovering from his severe attack of typhoid.

George Lebo and wife will enjoy ten days at Long Beach during the present month. Mr. Lebo visiting between the city and the beach.

The concert at the Grand Opera-house this evening promises to be a rare entertainment for which the very best local talent has been secured.

Mrs. Van Zandt and little son are expected to leave for San Diego today and will be the guests of Mr. and Mrs. E. A. Forrester on West Seventh street.

This evening the music pupils of Mrs. C. K. Johnson will be aided by local talent to give a musical and literary entertainment at Steinway Hall, Potomac Block.

The monthly Art Social and Sketch Club

At 7:30 p. m. Dr. M. C. Alter will deliver a paper to the students on "The use of diagrams." Students and friends invited.

With the last of July comes the exodus to the summer resorts, although some loyal citizens will remain in the city till after the 1st of August. On the 29th of July the day was steamer day for Catalina, and a number of people left on the morning train to catch the Palace for Avalon. Among the party were Dr. Sumner and family. The Hotel Metropole will not be opened this summer, and this, coupled with the fact that the large restaurants will not ply their trade in little Catalina, will undoubtedly deter many pleasure-seekers from frequenting Catalina, who have hitherto made it their summer resort. It is hoped, however, that this happy autumn (and fishing) ground.

Col. Corbin heard from Troops Moving on Arabi.

A dispatch was received yesterday at army headquarters from Col. Corbin, who is now among the Mosqui Indians, but he gives no news of the reported troubles on the reservation, and devotes the most of his dispatch to a description of his trip and the intense heat.

At the time he sent out his messenger he had probably just arrived, and had not had time to make an investigation. The troops from Fort Wingate, New Mexico, and Fort Apache, Arizona, reached Kean's Cañon on Monday.

Major Curwen B. McClellan, Tenth Cavalry, is in command of all the troops. They

**Marriage Licenses.**

Marriage licenses were issued at the County Clerk's office yesterday to the following persons:

Dwight W. Davis, a native of Michigan 27 years of age, to Alivra W. Stevens, a native of Ohio, 24 years of age, both residents of this city.

Frank L. Talcott, a native of New York 29 years of age, to Blanche E. Clinton, native of California, 27 years of age, both residents of this city.

William Tetzlaff, a native of Germany 32 years of age, residing at San Gabriel, Cal., to Elizabeth Tetzlaff, a native of California 32 years of age, residing at Alhambra.

years of age, to Amanda Alcock, a native of Iowa, 24 years of age, both residents of this city.

FOUNDED DEC. 4, 1881.

## NOTES OF THE DAY.

**The entente between France and England** is threatened with a rupture on account of the attitude of England toward the *Drednaut*.

The Southern Pacific Company has shipped this season 390 carloads of green fruit, against 166 carloads for the same season last year.

The Board of Health of San Francisco has pushed Chinese exclusion so far as to refuse to admit Chinamen to the city and county hospital.

We may soon expect to hear of lively times in Bering Sea. Cruisers—English and American—and proachers have left for the sealing grounds.

The large number of arrests for drunkenness made by the police on Sundays during June do not support the arguments of those who expected much from this ordinance.

The water in the Colorado Desert continues to rise, and it looks as if the Southern Pacific Railway tracks might be covered should it continue to increase in volume much longer.

The thermometer reached 117° in the shade at Merced yesterday and 105° at San Bernardino. So far, old Sol has been very reasonable in his treatment of us in this city. The highest temperature in Los Angeles yesterday was 88°.

The strings of tiny flags—resembling washing hung out to dry—certainly referred to as "decorations," are beginning to make their appearance on our streets. The artistic sense has not yet permeated the masses very deeply in the United States.

These are brave, true words uttered by William McKinley of the Republican party; words which cannot truthfully be asserted of any other party. "We do not invoke our past record as our only warrant for the confidence of the people, although we turn to it with pride and satisfaction. There is not a page of it we would obliterate if we could, nor is there a line which any lover of freedom or mankind would strike from its glorious pages."

A special report of the Treasury Department deals with the subject of immigration into the United States from 1820 to 1890. Arrivals of immigrants from 1820 to 1890 have reached the large number of 15,641,688. The proportion of arrivals from Europe increased from 68.69 per cent. of the whole immigration in the time from 1820 to 1830 to 91.67 per cent. in the last decade from 1881 to 1890. Germany and Ireland are the countries sending the greatest number of emigrants. The only leading countries from which the arrivals have fallen off during the past ten years are France and China.

The Los Angeles City Water Company takes exception at some remarks in a recent article about the water question in Los Angeles and calls attention to the fact that eleven streams were thrown at the recent fire at Hill and Seventh streets. The article in question was written with special reference to another system. The City Water Company has made great improvements of late years and its system has been highly spoken of by several eminent engineers who have examined it. Still, we maintain that all cities should own their water systems. As to the Citizens' Company, it maintains that there would be ample water for all its customers if they would use the water with reasonable care and not waste it. We have received a number of communications on the hill water question during the past few days, many of them couched in anything but temperate language, and few of them containing practical suggestions.

CONSIDERABLE surprise is felt in eastern financial circles at the continued exports of gold, though they are on a reduced scale. It is inconceivable, says Henry Clews, that, after the extraordinary amount of cash liquidations this country has lately made, there can be still outstanding against us an adverse foreign balance. We must therefore regard the continued shipments as due entirely to special causes. The principal cause appears to be that while there is an abundance of exchange being made to meet all necessary requirements for remittances, yet a considerable portion of the bills are unavailable in consequence of the credit of the payers having been unfavorably affected by the prevailing financial distrust in Great Britain and on the continent. This causes a scarcity of negotiable exchange, and the result is that we are remitting gold at a time when the balance of our account with the rest of the world is in our favor. While this causes an unsettling drain upon our cash resources, there is the satisfaction that it correspondingly augments the amount of gold to be returned hither at a later stage.

## EUROPEAN TRAVEL.

Americans are great travelers. The American tourist is found everywhere under all suns and in all lands. If we were not a great, rich and prosperous country, our industrial interests would suffer somewhat from the enormous aggregate of wealth which our people spend abroad. Every summer, with the approach of warm weather, the exodus begins, and American cash goes into European pockets during the season of travel every year. Europe may purchase our grains and other food products, but the money she pays for these necessities of life is all paid back to her by the great army of tourists which go out from us every year to visit her shores.

Europe will have to call upon the United States in the next few months for large supplies of grain, and this will mean good times for our farmers, but this does not mean, by any means, that we shall get the better of our brothers across the seas, because the people who go abroad will spend as much money as comes in to us in the fashionable fad of foreign sight-seeing. Going abroad is all well enough for our people after they have seen some of the sights that are worth seeing in our own land. We have all the magnificence of Alpine scenery here. We have as great waterfalls and as picturesque views as can be found anywhere in the old world. Europe has no Niagara, no Garden of the Gods, no Yosemite. The atmosphere of the past lingers about her, and the charm of historic story, it is true, together with the elegance of art and architecture, but how many are there among our summer tourists who care for these things. Hardly more than one in a hundred. They go abroad because it is the fashionable thing to do. Now, if we could only get up a little healthy interest among them, in things pertaining to our own land, and make it the fashionable thing to visit our Pacific Slope, we should not only keep these millions of capital at home to be invested in home enterprise and home advancement, but we could at the same time cultivate, with a better knowledge of our country and its resources, a greater pride in this vastness of empire which is our heritage and a larger degree of prosperity than we have ever known. It is an object worth attaining, and educated foreigners who come among us often wonder at our blindness and our failure to grasp the grandeur of our possibilities.

## AN IMPUDENT PROPOSITION.

The second memorial presented by Herr Cahensley to the Papal Secretary of State, to which we briefly alluded yesterday, is a most remarkable document. At the time that an outline of the first memorial was telegraphed we criticized the proposed action of the papacy severely. In face of this second and more violent blast it is difficult to find suitable words to describe the astonishment and indignation which must be felt by every patriotic American Catholic as well as Protestant upon reading it. The proposition is nothing less than to create a religious *imperium in imperio* within the United States, the subjects of which religious autocracy should look for guidance in their political and social life to a foreign prelate across the Atlantic.

We are told very ingeniously that the appointment of a number of German clergymen as bishops in the United States would increase the power of the German government in American affairs. Cahensley even offers to partition this foreign influence in America with Italy, Austria and Spain, though Germany would keep the lion's share. The memorial kindly informs us that "to want these nationalities to forget their languages and country in order to Americanize themselves is to pursue a work directly opposed to the Constitution." Our public schools naturally come in for censure. "Their organization is such as to lead to carelessness in church duties." The memorial goes on to say that "through their emigrants the nations are acquiring in the great Republic an influence and an importance by which they will one day be able to make great profit." From passages which crop out here and there in the memorial it is clear that a war on Irish bishops in America is to be prosecuted with vigor by these new crusaders.

What do Americans think of this impudent proposition to maintain branches of foreign government in this country? Fortunately, we are not left in the dark as to what leading members of the Catholic Church in America think of it. Archbishop Ireland recently gave vent to his feelings of deep indignation at the proposition, and Cardinal Gibbons a few days ago made the following reference to it:

"We cannot view without astonishment and indignation a number of self-constituted and ambitious gentlemen in Europe complaining of the alleged inattention which is paid to the spiritual wants of the foreign population, and to the means of redress which they have thought proper to submit to the Holy See."

A dispatch from Rome, dated June 29, reads as follows: Under instructions from the Holy See an exact report of the comment made and the impressions produced in the United States by the project of Herr Cahensley regarding the spiritual care of Catholics emigrating to America has been drawn up and is now under consideration at the Vatican. The Pope's future action will largely depend on the impressions created in this report. If the Pope gets any thing like an exact report upon the comments made in this country on Cahensley's scheme—especially since the publication of this second memorial—it will not take him long to make up his mind as to

his future action. Should such a proposition as this be forced through, the Roman Church in the United States would stand in imminent danger of a rupture with the parent organization, such as occurred in England during the reign of Henry VIII.

The people of the United States are growing very tired of the abuses of the immigration system in this country. Nothing could be devised that would confirm and increase this sentiment more than Herr Cahensley's plan for keeping foreign immigrants as separate social, political and religious bodies, owing allegiance to foreign prelates, and, while enjoying the advantages of this free country, still regarding themselves as integral portions of the government which they left behind.

HARPER BROTHERS have decided to issue a special edition of Charles Dudley Warner's, "Our Italy" and "Samuel Ward's," which appeared in Harper's Magazine in November and December last. The articles were handsomely illustrated and were universally admitted to be the best general description ever written on Southern California. The Times reprinted the articles last fall, and over ten thousand copies were circulated. The publishers have offered to furnish these bound books at 30 cents or 35 cents each, where 1000 are taken in one order. It has been suggested to THE TIMES that the Chamber of Commerce should take this matter in hand and induce our representative business men to subscribe a sum sufficient to buy two or three thousand copies of the book. Further information can be obtained from K. H. Wade of the California Southern Railway.

Russia is suffering from an incipient famine. Grain has never been so dear before, and the poor peasants have to eat oatmeal mixed with tree bark, while hundreds are dying outright of hunger. Yet the government collects the taxes with the usual regularity, and failure to pay is visited with severe flogging. Russia is a poor excuse for a Christian country.

J. DE BARTH SHORR has arrived in Chicago. The character of Mr. Forsyth has been shown to be such that his appointment to the bureau of horticulture would not reflect any more credit on California than would that of Maxwell. Mr. Shorr has strong indorsements from all over the State and his appointment would give general satisfaction.

## Sewer Ventilation.

LOS ANGELES, June 30.—To the Editor of THE TIMES:—Your paper of the 29th contains an article headed "Sewer Flushing and Sewer Gas" showing how the former may be accomplished and the sewer gas got rid of. I will not discuss the flushing as it is admitted by all sanitary engineers that the oftener sewers are flushed the less sewer gas will generate; nor do I contend that the flues you speak of are not a success, but to use them as the Los Angeles sewer system is put in now it would require one of those flues in each block, as they would ventilate only from the open manhole tops nearest to them. And to put them in every block and get rid of the gas by fixing the flues would be very costly, though effective.

A much better and cheaper way would be to have the Council pass an ordinance compelling all property owners connecting with the sewer to put a four to six-inch vent-pipe from the side sewer to above the tops of their buildings, allowing no traps in sewer-pipes between manholes, and main sewers, then put on close-fitting solid tops on the man-holes, which would not allow any sewer-gas to escape in the street.

It is a well-known fact that from one to two degrees variation in the temperature of air in connected shafts or pipes will cause a circulation. So if a series of pipes are connected with the sewer a thorough circulation of the air will take place. The flow of sewage in the main sewer would also help to create a circulation, ventilating the sewer thoroughly and carrying all sewer gas above the tops of the houses where it could not be inhaled. It might be asked how the variation of temperature is got. If we take the vent pipes in block according to the laws of average, some would be on the north, some on the south, east and west sides of the buildings, and the temperature would be governed by the sun and shade. A variation of from 5° to 20° would be found between the pipes on the north and south sides of the houses. If we take the vent pipes in block according to the laws of average, some would be on the north, some on the south, east and west sides of the buildings, and the temperature would be governed by the sun and shade. A variation of from 5° to 20° would be found between the pipes on the north and south sides of the houses. ## FROM WASHINGTON.

## Secretary Foster and the Labor Factions.

Knights Surprised to Find Their Demands Firmly Refused.

## The New Copyright Law Goes Into Effect by Proclamation.

Monthly Statement of the Treasury—It Shows a Decrease in the Cash Balance—Immigration Statistics.

By Telegram to the Times.

WASHINGTON, July 1.—[By the Associated Press.] The Secretary of the Treasury today stated that he thought the proposition of the Federation of Labor that compliance with the request of the Knights of Labor would be an injustice to the Federation men new on the chance roll of the Bureau of Engraving and Printing as eminently fair. He accordingly decided to postpone his final decision until he should have an interview with President Gompers of the Federation.

The knights were surprised at this decision, and insisted upon the complete reinstatement of the seven discharged men within fifteen days or a month, but the Secretary was firm in his decision, and subsequently said that, in his opinion, the matter had evolved itself into a controversy between the organizations, and at present there was nothing for him to do.

## NEW COPYRIGHT LAW.

A Proclamation Carrying It Into Operation.

WASHINGTON, July 1.—The President today issued a proclamation providing for granting copyrights in the United States to citizens or subjects of Belgium, France, Great Britain and Switzerland.

The proclamation says: WHEREAS, satisfactory official assurances have been given that in Belgium, France, Great Britain and the British possessions and Switzerland the law permits to citizens of the United States the benefit of copyright on substantially the same basis as to citizens of these countries, therefore, I declare and proclaim that the first of the conditions specified in section 13 of the act entitled in respect to citizens or subjects of said countries.

The proclamation is accompanied by an exhaustive report prepared by Third Assistant Secretary of State Moore interpreting the law and explaining that its operations are limited to the four countries named in the proclamation, and that nations party to the Berne agreement are excluded from the proclamation. There also accompanies the proclamation a large mass of correspondence between the State Department and United States ministers in foreign countries concerning the matter. The first country to apply in behalf of its citizens for the benefits of the act was France. Great Britain was the third to apply, and there was considerable correspondence, the last being a telegram from our minister in London under date of June 20, transmitting Lord Salisbury's assurances. Satisfactory assurances are also given by the Swiss and Belgium ministers as to compliance with the first condition of sec. 13.

## NATIONAL FINANCES.

Monthly Treasury Statement—Decrease in the Cash Balance.

WASHINGTON, July 1.—[By the Associated Press.] The public debt statement issued this afternoon is in a new form. It shows that the interest and non-interest-bearing debt decreased \$221,866,821 during the month of June. The following extracts are taken from the tabulated statement.

Aggregate of interest-bearing debt exclusive of United States bonds to Pacific railroads..... \$ 610,529,120  
Debt on which interest ceased since maturity..... 1,614,705  
Decrease in this during month..... 32,800  
Debt bearing no interest..... 303,662,735  
Decrease during the month..... 218,586  
Aggregate of interest and non-interest bearing debt..... 1,005,806,560  
Decrease during the month..... 2,218,666  
Certificates and treasury notes offset for each amount by cash in the treasury..... 540,190,031  
Increase..... 1,999,382  
Aggregate of debt including certificates and treasury notes..... 1,549,996,591  
Decrease during month..... 2,218,666

Under the head of cash in the treasury statement shows \$238,518,121 in gold coin and bars \$347,978,227, silver dollars \$19,656,695 in subsidiary coin \$36,889,847; \$4,484,293 in trade dollars and bars; total in metals \$399,361,974. The paper including legal tender notes, Treasury notes, gold and silver currency certificates and national bank notes aggregates \$78,769,236. Bonds, minor coin, fractional currency, deposits in national banks, disbursing officers' balances, etc., make up \$28,700,419—a grand total of \$745,349,751. Under the head of demand liabilities are classified gold, silver and currency certificates and treasury notes to the amount of \$540,190,031, the funds for the redemption of national bank notes outstanding, checks, etc., disbursing officers' balances and agency accounts of \$51,285,911; a gold reserve of \$100,000,000 and cash balance of \$53,993,898, making an aggregate of \$745,349,751. The statement shows a decrease in the cash balance in the treasury during the month of \$4,992,809, it standing on the 30th of June at \$153,898,808.

## IMMIGRATION FIGURES.

The Millions that Have Come During Seventy Years.

WASHINGTON, July 1.—[By the Associated Press.] Immigration into the United States from 1820 to 1890 is the subject of a special report which is prepared by the chief of the bureau of statistics of the Treasury Department, and will soon be published. Arrivals of immigrants from 1820 to 1890 have reached 15,641,688. The proportion of arrivals from Europe increased from 68.69 per cent. of the whole immigration in the time from 1821 to 1830 to 91.67 per cent. in the last decade from 1881 to 1890.

Germany and Ireland are the countries sending the greatest number of emigrants. The only leading countries from which the arrivals have fallen off during the past ten years are France and China. The year of the largest immigration yet reported, was that ended June 30, 1882, when the arrivals were 788,992.

Immigration from Italy was 15,401 for the fiscal year 1891, and has steadily increased until 1890, when it was 52,000, and the present year ending

June 30, 1891, when the total for ten months reached 51,153, as against 34,810 for the corresponding months of 1890. Of arrivals during ten years, from 1881 to 1890, 61.1 per cent. were males. The greatest proportion of females come from Ireland, the smallest proportion from Italy and Hungary.

Classification of the character of immigration during the past decade shows that only 26,257 males were of the professional classes, 514,552 were laborers, 1,833,825 of miscellaneous occupations, 73,327 made no statement in regard to occupation, and 759,450 were without occupation. Of 2,040,702 females, 1,724,454 were without occupation.

Appointments by the President. WASHINGTON, July 1.—The President today made the following appointments: John H. Robertson of New Mexico, agent for the Indians of Pueblo and Jacarilla agency in New Mexico; John W. Crawford of Oregon, agent for the Indians of Umatilla agency in Oregon.

An Angeleno Appointed. WASHINGTON, July 1.—The Secretary of the Treasury appointed John C. Siedman of Los Angeles storekeeper and gauger in the internal revenue service.

BLAINE'S HEALTH. Conflicting Reports About the Secretary's Health.

NEW YORK, July 1.—A Bar Harbor special says that last evening a messenger from the Blaine household called for the village physician and together they hastened to the residence of Mr. Blaine. Everything went to show that the Secretary had a bad turn. It is learned, however, that the attack was not very severe, but it alarmed his family.

BAR HARBOR (Me.) July 1.—Marquis Imperiali, Italian Charge d'Affaires at Washington, arrived here this morning, engaged rooms at the Hotel Porcupine for eight weeks, and will spend the summer here.

Blaine has been driving twice today. He rode about town this morning and this afternoon took a long drive on the Cornish road. Mrs. Blaine accompanied him. At one time during the ride he alighted from the carriage and walked a short distance. His physician says the Secretary's health is constantly improving since coming here, although he has occasional days of depression. He has had no relapse, and his mental strength is unimpaired.

Marquis Imperiali has not yet called on Blaine, as he comes himself for a vacation.

## THE BALL FIELD.

Games Won and Lost by Clubs in the East.

NEW YORK, July 1.—[By the Associated Press.] Boston was an easy winner today, Brooklyn making but two hits. Score: Brooklyn, 0; Boston, 6.

PHILADELPHIA, July 1.—The home team made but two hits today, but won the game through the visitors' errors. Score: Philadelphia 4; New York, 2.

CHICAGO, July 1.—Superior batting and a generally faultless game gave Chicago the victory today. Score: Chicago, 9; Cleveland, 3.

CINCINNATI, July 1.—Good batting for Pittsburgh and a costly error by the home team gave Pittsburgh today's game. Score: Cincinnati, 4; Pittsburgh, 6.

BOSTON, July 1.—Boston, 9; Washington, 3.

COLUMBUS, July 1.—Columbus, 4; Cincinnati, 2.

PHILADELPHIA, July 1.—Athletics, 2; Baltimore, 4.

## Weather Bureau Appointments.

WASHINGTON, July 1.—Secretary Rusk today made the following appointments in the Weather Bureau: Cleveland Abbe, reappointed professor of meteorology; H. A. Hazen (Conn.), Thomas Russell (Mich.), C. F. Marvin (O.), meteorologists; Bughen, superintendent of telegraph lines, and J. J. Robinson, chief telegraph operator.

## No Chinese Need Apply.

SAN FRANCISCO, July 1.—The Board of Health met this morning to discuss the matter of granting Chinese permission to enter the city and county hospital. The issue was raised by an application made by a consumptive Chinese, and was refused in accordance with the regulations of the board.

Illinois Coal Mines Closed. St. LOUIS, July 1.—The Consolidated coal mines, in the Collinsville coal district of Illinois, closed down today, and between 300 and 400 miners were thrown out of employment. The shut-down is caused by the taking effect of the recently-passed weekly pay bill.

"Jack the Ripper's" Trial. NEW YORK, July 1.—The State today rested its case against Awer Ben Ali, alias "Frenchy," supposed to be "Jack the Ripper," on trial for the murder of Carrie Brown last April at the East River Hotel.

A Tacoma Man Drowned. GILROY, July 1.—L. B. Patterson, a visitor from Tacoma, while swimming last night in company with his cousin, C. P. Estabrook, at Sargent's station, became suddenly helpless and was drowned. The body was recovered.

Harvard's New Dean. BOSTON, July 1.—Prof. Lebanon Russell Briggs has assumed the duties of dean of Harvard College, succeeding Clement L. Smith, resigned. Prof. Smith has been dean since 1882.

Struck for the Scale. CLEVELAND (O.) July 1.—Six hundred employees of the Union and Lake Erie rolling mills here struck today because their employers refused to sign the amalgamated scale.

Th. Old Firm Falls. OMAHA (Nebr.) July 1.—Louis Helmer and Co., one of the oldest grocery firms in Omaha, failed this morning. Assets and liabilities are not yet known.

## FIGHTING FLAMES.

## Fires Spreading on Mount Tamalpais.

Five Hundred Men Battling to Check Their Onward Sweep.

Messengers on Horseback Scouring the Country for Volunteers.

San Rafael Enveloped in a Thick Cloud of Smoke—Anxious Hours on the Mountain Side.

By Telegram to the Times.

SAN RAFAEL, July 1.—[By the Associated Press.] Fire on Mount Tamalpais broke out again this morning. It is said fully 500 men are at work fighting the flames. A gang of men worked all last night back of the residence of A. E. Kent at Tamalpais. This morning the fire had crossed the ridge west of Kent's property, and was sweeping toward Corte de Madera. A force of men were quickly transferred to that post and succeeded in bucking the chapparal and brush. Nothing but smoldering stumps are left.

About 4 o'clock this afternoon word was received here that the Kent residence was again in danger, and an hour later mounted messengers were scouring the town in search of men to go to Kent's, and on inquiry by telephone it was found that the Kent residence was in greater danger than last evening. The smoldering trees and underbrush had again started, and owing to a stiff breeze which sprung up this afternoon, the fire gained great headway. The dense forest back of Kent's station was in flames, and the fire was encroaching on the woods at Tamalpais station.

At 6 o'clock this evening an extra force of men were telegraphed for and sent to Kent's. All the morning smoke hung over San Rafael and a dense haze now rests over the town.

## DODGING AN INJUNCTION.

Sugar Trust Men Get Their Dividend in Spite of the Law.

NEW YORK, July 1.—Judge Barnard, sitting in the Supreme Court, has granted an injunction restraining the payment of a dividend on the stock of the sugar refineries company. When the announcement was made in Wall street it created a furore in the market. Sugar stock which had sold as high as \$3 dropped to \$1, and then sold up again to \$2.50.

It seems that the injunction is similar to the action of the man who locked the stable door after the horse had been stolen. It is said that checks for the dividends were all made out and mailed to the stockholders late last night. This done, the trustees silently stole away and no officers of the company were at their desks today. Inquirers were told that they had all gone fishing. Officers were unable to find any one on whom to serve the injunction papers. This is the first dividend by the company since the reorganization.

## CAHENSEY'S PLAN.

The Pope Disapproves It—What Cardinal Gibbons Says.

BALTIMORE, July 1.—[By the Associated Press.] When Cardinal Gibbons was shown an Associated Press dispatch from Rome stating that the Pope has written him that he will never concede the demands made by Herr Cahensley on behalf of the St. Raphael societies for the protection of Catholic emigrants, in so far as the appointment of national bishops is concerned, an exclamation of surprise was heard. The Pope has also refused the petition of Poles in the United States for the appointment of a Polish bishop. Cardinal Gibbons remarked that he was very glad to receive the information. His Eminence added: "I was not unprepared for a communication of this kind from the Holy Father."

## Jealousy Causes Two Tragedies.

HUNTSVILLE (Ala.) July 1.—John Baker, a colored man, shot and killed his wife and then mutilated her with a razor in a horrible manner and cut his own throat. Jealousy was the cause.

NEW YORK, July 1.—Alexander Weiss, 40 years old, agent for advertisements for certain German newspapers, fatally shot Maria Hodig and himself this morning. Jealousy was the cause.

## B came Suddenly Insane.

ST. PAUL (Minn.) July 1.—Andrew Row, a wealthy stock man and mine owner of Wardner, Idaho, was taken from the eastbound train at Waseca, Minn., today, violently insane. He was on his way to Europe. On his person was found a draft on a bank at Spokane for \$100 and \$320 in money. His valise containing deeds to valuable mining property was either lost or stolen.

## Jumped Into a Reservoir.

WOODHAVEN, July 1.—Mrs. Emma Brown, wife of Daniel S. Brown, secretary for the Benton (Mont.) Board of Trade, escaped yesterday from the sanitarium here, where she had been under treatment some time for emotional insanity, and ended her life by jumping in the reservoir of the Woodhaven water-works.

## Result of a Family Feud.

NEW ORLEANS, July 1.—C. J. Reeves, residing near Port Gibson, met his brother-in-law Isaac Rush on the public road this morning and fired a load of buck shot into him inflicting probably mortal wounds. A family feud was the cause. Reeves has left the country.

## The Pursu too Small.

BRELOT (Wis.) July 1.—"Parson" Davies received a telegram this morning from the directors of the California Athletic Club offering a purse of \$2000 for a contest between Kinick and Dawson, the Australian. Davies considers the purse inadequate.

GAL MON TER on exhibition at Van Koo

AINAXAB THE CELEBRATED EGYPTIAN ELIXIR FOR THE SKIN.

The immense sale of this well-known and invaluable Elixir is of itself the proof of its intrinsic worth. Its great value consists not merely in giving to the skin a brilliant and healthy appearance, but in the genuine and permanent tone, vigor and bloom which nothing but perfect health of the tissues can impart. This remarkable preparation has proven a boon to thousands afflicted with diseases of the skin. Eczema, itching, scaling, cooling and effective in its action, so much so that it can be safely used on the skin of a babe just born. It will also cure the most inveterate diseases, such as scald head, eczema, itch, poison itch, erysipelas, dandruff, diseases of the scalp and blood poison. No one who has once used it will ever be without it. It will make the roughest skin smooth, soft, and velvety. It is guaranteed to be perfectly harmless, containing neither mercury, lead, or other corrosive poisons. In fact the AINAXAB has been so long and thoroughly tested that it is not necessary to say more.

For sale by all Druggists. Price, \$1.00

## A YEAR'S MORTALITY.

## Health Officer Sher's First Annual Report.

## VARIOUS CAUSES OF DEATH

Notes and Comment on Local Topics—Water Development—The Bohemian Girl—Personal and Briefs.

In accordance with instructions from the City Council, Health Officer H. H. Sher has prepared an annual report of vital statistics for the year ending April 30, 1891, embracing the city of Pasadena and the immediate surrounding districts, embraced within his jurisdiction. The subject is one of special interest, as it serves to illustrate the advantages of our highly respected climate.

A complete synopsis of the report is furnished below, some hours in advance of our somewhat slow-moving but highly esteemed and antique contemporaries.

Following is the total number and causes of death during the year: Cholera infantum, 2; la grippe, 4; diphtheria, 3; membranous croup, 2; infantile, 3; gastritis, 2; gastro enteritis, 2; enteritis, 1; colitis, 1; inflammation of liver, 1; Bright's disease, 2; pericarditis, 1; pleurisy, 1; pneumonia, 2; phthisis, 55; heart disease, 3; angina pectoris, 1; hydrocephalus, 1; chronic encephalitis, 1; cerebro-spinal meningitis, 2; cerebral congestion, 1; apoplexy, 8; convulsions (uremic), 2; cerebral abscess, 1; cancer, 8; septicaemia, 1; peritonitis (non-puerperal), 2; puerperal fever, 1; eclampsia, 1; asphyxia, 1; still births and premature labors, 5; old age, 3; accidental, 2. Total, 128.

Of these the greatest number died in February last, during which month 21 deaths were recorded. Seven died in May, 1890; 13 in June, 10 in July, 11 in August, 8 in September, 5 in October, 9 in November, 11 in December, 9 in January, 18 in March and 12 in April.

Of those whose deaths are recorded, 72 were males and 56 were females. Seventeen of the number were under 1 year of age, 7 were between 1 and 5 years, 2 between 5 and 10 years, 4 between 10 and 20 years, 31 between 20 and 30 years, 14 between 30 and 40 years, 22 between 40 and 50 years, 13 between 50 and 60 years, and 18 between 60 and 100 years.

One hundred and twenty-four were Caucasians, 3 were negroes, and 1 was a Mongolian. Twenty-three were natives of the Pacific States, 83 of the Atlantic States, 18 were foreign-born, and the nativity of 4 was not ascertained. Seventy-three were interred in Mountain View Cemetery, and the remaining 55 were removed elsewhere for interment.

Of the deceased, 22 had lived in California less than three months, 6 had lived here less than six months, 3 between six months and a year, 32 between one and three years, 37 between three and ten years, 3 were here over ten years, and the length of residence of the remaining four was not ascertained.

Following is presented a portion of the summary of the report as prepared by Dr. Sher:

"This report includes the deaths occurring in the city of Pasadena, and in the immediate surrounding districts, having a permanent population of about 7000, which is raised to nearly 10,000 by the influx of invalids and tourists during the winter months."

"Seventeen of the deaths occurred in children under 1 year of age. Five of these were premature and still births. Only 3 of the 17 were the result of diseases of the digestive organs."

"Fifty-five deaths, or nearly one-half of the total, were caused by phthisis tuberculosis (consumption). Of these 55 only 1 was a native of California; 14, or over one-fourth of the whole number, died within three months of their arrival in Los Angeles county, and 5 more within the first six months, showing that 19 of the 55 were in the advanced stages of tuberculosis prior to their coming to Southern California."

## NOTES AND COMMENT.

A subscriber called at No. 50 East Colorado street yesterday to pay his paper bill, saying he wished to celebrate the Fourth in a truly independent fashion, free from all obligations. This is a hint to a few gentlemen of our acquaintance whom we would like to see do likewise.

The festive flies begin to flap their little wings and stir up the white and blue eyes of the chap whose head is minus hair.

The Health Officer's report, published today, furnishes interesting reading. Worthy of special note is the statement that while fifty-five deaths—nearly one-half the total number recorded—were caused by consumption, but one of the deceased was a native of California, and that over one-third of this number were in the advanced stages of the disease before they entered the State.

## MORE WATER.

Soon There Will be Blasting at Devil's Gate.

A special meeting of the Lake Vineyard Water Company directors was held Tuesday evening. The chief subject of discussion was the proposed further development of the supply at Devil's Gate.

Although all the proceedings were not made public, it has leaked out that Secretary Habbick submitted some minutes of long ago, relating to a decree of the court defining the relative rights and privileges of the east and west-side water companies, which are of such a nature as to indicate that there is nothing to prevent proceeding with the tunneling in the vicinity of the present chief source of supply.

It was estimated that on Tuesday 169 inches of water were flowing down from Devil's Gate. This in itself is a pretty good supply for a town the size of Pasadena.

Opera Tonight. The Bohemian Girl will be presented tonight and tomorrow night at the opera-house by the Pasadena Conservatory of Music under the efficient direction of Prof. O. W. Kyle. There is no reason to doubt that the opera

## SANTA MONICA.

SANTA MONICA, July 1.—[Correspondence of THE TIMES.] Four coaches came down this morning bringing a large delegation of women and children. Most of them, reinforced by the townspeople and sojourners, took a plunge in the ocean, presenting a lively picture on the ocean-front for two or three hours.

A lady calls attention to the fact that the initials of the Resolute Anti-Trafficking Society, advocated in THE TIMES by a Long Beach correspondent, spells "Rat!"

The Santa Monica fire company has about completed their arrangements for the ball to be given at Hotel Arcadia on Friday night, July 3. Those who are fond of the fascinations of the dance cannot fail to put in a delightful evening. The ballroom, located in the state, the music engaged is very fine, and every adjunct is all that one could wish. Tickets, admitting gentlemen and ladies, \$1. The fire boys have been very faithful and should be liberally encouraged.

Mark G. Jones, wife and babies and nurse came down this morning. They have taken the Glissell cottage in Santa Monica, and will be here for some time.

Miss Vail of San Francisco joins her brother and sister, Mr. and Mrs. Hugh Vail, at the Casino today.

Mr. and Mrs. R. W. Broadbent of Douglas, Isle of Man, after spending several days as guests at the Casino, left yesterday for home.

Miss Mills and Cushman of Los Angeles have the Aurora cottage on South beach.

Registered at the Arcadia today: A. T. Harvey, P. H. Tponger, J. E. Durkee, Mrs. Ingham Wade, Mrs. T. R. Wilson, Los Angeles; J. M. Morehead, Mrs. A. T. Adams, Mrs. L. D. Chancellor, San Francisco; J. H. Weather, Aberdeen, Wash.; H. H. Reubens, Glendale; Mr. and Mrs. E. A. Tuttle and daughter, Redlands; Mrs. M. W. Outwater, Sierra Madre; Miss F. R. Hough, Washington city; Miss C. M. Mills, Menlo Park.

At the St. James: Lew Bronson, Buffalo, N. Y.; Thomas E. Reeves, Pomona; B. F. Egan, Nashville, Tenn.; Mrs. Blum and children and nurse, Los Angeles.

Covey hunting is sometimes quite profitable. E. P. Benedict, who lives in the foothills east of Santa Monica, has killed four within the last few days. The bounty is \$5 a head.

The numerous friends of Col. E. K. Chapin will be pained to learn the sad news that he is now lying at the port of death. Those who have carefully watched him have given up all hope of his recovery. He is liable to pass away at any moment. Dos ESCADORES.

## REAL-ESTATE TRANSFERS.

(Only those transfers of \$1000 and over are specified below. Those below \$1000 are summarized at the end of the list.)

LOS ANGELES, July 1.

## CONVEYANCES.

Geo. Rhomer and Peter Fleming to William Chisholm—5 acres in E. corner of lot 13 N. E. Pomona tract \$1000.

Pacific Land Improvement Co. to Peter Fleming and George Rhomer—lots 1, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000.

**Royal Baking Powder is reported by the U. S. Government, after official tests, highest of all in leavening power. It is the best and most economical; a pure cream of tartar Baking Powder.**

L. A. Mesmer and R. J. Granfield indulged in a fight, which resulted in both being arrested for disturbing the peace.

Neither the Police or Fire Commissioners held a meeting yesterday, it being impossible to get a quorum of either board together.

There were thirty-nine conveyances of real estate yesterday, the consideration being \$38,356; of which number fourteen were for sums of over \$1000 each.

By advertisement, it will be seen that the Avalon House and other places of entertainment at Catalina are open, and well supplied with all requisites for guests.

A cottage at the corner of Herndon and Yale streets, owned by Mrs. Sarciat, was partially destroyed by fire yesterday morning. Loss \$200, fully covered by insurance.

The census of Mayor Bryson says a prominent colonel of this city is willing to make an affidavit that "Uncle" John's 72-year-old story is way off in every particular.

According to the meteorological summary of the Weather Bureau, the mean temperature for June was 23.87. The mean temperature was 65°, the highest 89° on the 6th, and the lowest 49° on the 14th.

A. M. Gappa was committed to the reform school yesterday by Justice Austin. The girl Mattie Lawson was also taken in charge by the police, and will probably be sent out to the same institution today.

T. H. Avery, assistant cashier of the Southern California National Bank, was married to Miss Little, of Oakland, the other day, and the young couple are now at home to their friends at the Figueroa House.

The Whittier Reform School opened yesterday. Everything was in readiness, and in a day or two the regular routine of the institution will be established. There will probably be twenty inmates by the latter part of the week.

Pedro Gonzales, charged with disturbing the peace, yesterday came in and gave himself up. A warrant has been out for his arrest, but he could not be found. He says he heard Deputy Russell's bloodhounds near his place, and thought he had better surrender.

Residents in the northern part of the city are endeavoring to arrange for a fireworks display of their own on the high hill back of the Jewish cemetery. Those desiring to contribute to the fund can leave the money at Donato Bros., store, corner of Alpine and Pearl streets.

The Electric road people were busy all day yesterday, and sent a car as far as Bunker Hill avenue. They have an army of men at work getting the western end of the line in shape, and if nothing happens will be ready for business by the Fourth. The car was crowded all day yesterday.

It is stated on good authority that the Southern Pacific has bought the San Bernardino and Redlands roads. This news is of special interest to the people along the line, and in and about Redlands and San Bernardino, for the reason that the Santa Fe has just inaugurated a rate war on the short line.

Arrangements are being made to give the school children of the city a free excursion to San Diego and Coronado, on Saturday, the 11th. Mr. Mesmer, of the United States Hotel, is at the head of the project. Adults will be charged \$2.50 for the round trip. It is the intention to give the children of San Diego a similar excursion to this city on July 4.

The old Mexican named Ceretos, who was arrested a few weeks ago on a charge of incest at Burbank and was released, was again arrested last night by Constable Rogers and locked up in the County Jail on a charge of threats against his wife, who was the prosecuting witness in the previous case.

The complaint was issued from Justice Stanton's court.

The Coroner yesterday received a letter from the nephew of W. B. Lower, the man who was found dead in the brush near the Los Angeles River, on the 11th of last month. The writer states that his uncle left Wabash, Ind., with the intention of going to Iowa to spend the summer, and that he intended spending the winter in Southern California. The deceased was a bachelor.

#### NEWS AND BUSINESS.

##### The Weather.

U. S. WEATHER OFFICE, LOS ANGELES, JULY 1.—At 5:07 a.m. the barometer registered 30.84; at 5:07 p.m. 29.80. Thermometer for corresponding hours showed 60° and 77°. Maximum temperature, 88°; minimum temperature, 59°. Partly cloudy.

EASTERN TEMPERATURES. CHICAGO, July 1.—Temperatures at 9 a.m.: Chicago 54°, Cincinnati 60°, St. Louis 60°, New York 55°, New Orleans 54°.

The popular Dr. Henson gives three lectures at Long Beach. Hear him. Order your groceries in time at H. Jevne's, as we close all day Saturday, July 4.

There is an undelivered telegram at the Western Union Telegraph office for W. W. Jamison.

Buy your goods today and tomorrow at The Candler Dry Goods House will be closed the entire day July 4.

Rev. Robert F. Coyle, a noted divine of Oakland, will preach the first Presbyterian Church next Sunday.

The Stanton Relief Corps will serve another of their excellent home-cooked dinners for 25 cents at 213 South Broadway July 4, also cake and ice cream, for the benefit of their relief fund.

C. M. Heintz, city fruit inspector, yesterday seized 200 boxes of scale-infested oranges recently imported from Tahiti by Messrs. Bros. of Pomona. The oranges have been fumigated at San Pedro, but the scale had not been killed.

There is an important change in the time of the Redondo railway trains, and especially the Sunday trains, affording the public ample opportunity of returning to Los Angeles from Redondo after having taken a dip in the surf.

Col. J. J. Ayers of the Herald lectured at the Immanuel Church, corner Tenth and Pearl streets, last evening, his subject being, "An Evening with Shakespeare and His Contemporaries." The room was well filled, and the scholarly lecture thoroughly enjoyed by all present.

Particular attention is called to the statement of the German American Savings Bank issued today. The officers believe in a strictly careful and conservative business and have placed \$4000 in the surplus account from the net profits, and is otherwise reported in a flourishing condition.

#### FOURTH OF JULY.

##### The Committee Completing Final Arrangements.

##### THE FIREWORKS AT WESTLAKE

The Finance Committee to Make Another Canvass Today—Decorations Along the Line of March.

The general committee of the Fourth of July Association met at headquarters in the Union League rooms last night at 8 o'clock with Andrew McNally in the chair and Secretary Cherry present.

The minutes of the last meeting were read and approved, and the committee proceeded to business.

The secretary stated that he had consulted with the ladies of the various societies and they consented to attend to ice water in case the committee will not allow breweries to deal out beer in the parade.

It was moved that the ice water be dispensed with, but there was a strong opposition to the motion on the ground that there should be water on the streets.

The secretary stated that an offer was made by parties who will furnish water in wagons at the rate of \$2.50 a wagon. The wagon plan was adopted.

At this stage of the proceedings Mayor Hazard entered and took the chair, at the invitation of Mr. McNally.

An appropriation of \$100 was made for the decoration of the fire department engines and the hook and ladder and hose trucks, so that they can turn out in the parade.

The Finance Committee was requested to get out today and make a further canvass. J. M. Skinner, chairman of the Fireworks Committee, reported progress. He stated that the Park Commissioners will do all in their power to make the display on Westlake Park a success. He will build the gunboats and floats today and tomorrow.

The field marshal stated that the merchants and manufacturers will turn out in force in the parade.

The band contest will not take place until after the exercises close, and any band that makes a noise before the close will be ruled out.

All persons residing on the line of march are requested to decorate and the same request was extended to all persons.

Adjourned till Friday night at 8 o'clock. The committee is anxious to have young men who wish to act as ushers call at headquarters.

Capt. Almsworth of Redondo will have a fine boat on wheels in the parade.

A sample of blue sash to be worn by the staff of the grand marshal can be seen at headquarters.

#### The Oldest Epitaph.

The oldest epitaph in English, which is found in a churchyard in Oxfordshire, and dates from the year 1370, to modern readers would be unintelligible, not only from its antique typography, but from its obsolete language, the first two lines of which run as follows, and may be taken as a sample of the whole: "Man com & so low schal alle dede be: wen yow comes bad & bare: noth have ven we yow fare: alle yewerines yt ve care."

The modern reading would be: "Man, come and see how shall all dead be, when you come poor and bare; nothing have, when we away fare: All is weariness that we care."—Cornhill Magazine.

Coffee pounded in a mortar and roasted on an iron plate, sugar burned on hot coals, and vinegar boiled with myrrh and sprinkled on the floor and furniture of a sick room, are excellent deodorizers.

Persons will find that they can write easily and legibly while traveling on a railroad train if they will use a pillow as a table to rest their paper on.

#### Sickness Among Children.

Especially infants, is prevalent more or less at all times, but is largely avoided by giving proper nourishment and wholesome food. The most successful and reliable of all is the Gail Borden "Eagle" Brand Condensed Milk. Your grocer and druggist keep it.

#### DIED.

Dr. Woh's life work has been from early youth one of persistent and untiring observation, study and investigation, as fully as lay in his power to perfect himself in all branches of the art of healing human sickness and disease. Born in China, of influential parents, of a family whose ancestors have been for generations deservedly renowned as leading physicians, Dr. Woh naturally followed in the footsteps of his fathers. In China he has practiced his profession for several years, being at one time a physician in the Imperial Hospital, and in America for a long time his great number of patients, his wonderful and successful cures, and the great list of letters from grateful and thankful patrons now prove him to be a remarkable and successful healer of sickness and all diseases.

For many years I have been troubled with lung disease, which finally ended in asthma and consumption. I consulted with the best physicians I could find but they did me no benefit, but on the contrary I got worse and worse, until I was told by one of them I could not recover. Dr. Woh took me in this condition. He has in two months' time entirely cured me. I most cordially recommend him to all sufferers. MRS. F. WESSEL, 825 Boyd st., Los Angeles, Cal.

May 1st, 1891. I have tried many doctors for heart disease but have derived no benefit until Dr. Woh, the Chinese physician, of Los Angeles City, prescribed for me. Two months ago I began his treatment and now certify that he has done me great good. I recommend Dr. Woh to my friends as an able doctor. P. E. KING, Justice of the Peace, Burbank, Cal.

Dr. Woh was recommended to me by a friend. I had been troubled for years with indigestion, causing fearful headaches and vertigo, making my life one of misery. I tried and paid the best physicians without relief. Finally, to please my friend, I visited Dr. Woh at his office and he advised with me and gave me medicines. This was but six weeks ago. Today I can gladly and sincerely say that he has entirely cured me. CHARLES HEILMANN, 631 Court st., L. A., Cal.

For 3 years I have been troubled with terrible cramps and pains in my abdomen, and with dropsical swellings of my feet and limbs. I endeavored in every way to find relief but failed, until four weeks ago I began using Dr. Woh's medicines. Now I am perfectly well and cured of a sickness of three years' standing. I do recommend Dr. Woh to all my sick friends. June 10, 1891. MISS JESSIE M. FIELD, San Bernardino, Cal.

Dr. Woh has hundreds of similar testimonials, but space alone prevents further publication of them here. Dr. Woh is the oldest and best-known Chinese Physician in Southern California. His many cures have been remarkable, involving Female Troubles, Tumors and every form of disease. Free consultation to every one and all are cordially invited to call upon Dr. Woh at his office, 227 SOUTH MAIN STREET, bet. Second and Third sts., Los Angeles, Cal.
